

The Community Services and Parks Department and our very own Youth and Family Services Program believe that the lives of our youth are highly impacted and influenced by both their families and their community. We can best serve the youth when we address the needs of the family through a comprehensive approach of case management. The success of this approach is only possible through the variety of social service resources available in our community. The Youth and Family Services Program supports youth and families in the Glendale community through its dedication of providing supportive links to these resources.

We are proud of our ongoing partnerships with local social service organizations in our community and surrounding cities. It is through the efforts of these partnerships that we are able to provide a comprehensive resource directory to the community. This directory is designed to raise awareness of the programs and services provided by organizations that are serving our community's youth and their families.

I would like to thank everyone in the community who participated in making this directory possible. Without the assistance of everyone involved, our goal of bringing this directory to the community would not be possible.

Respectfully,

*Jess Duran, Director
Community Services and Parks Department*
